

Miniature photoelectric sensor PST series

Shanghai Lanbao Sensing Technology Co., Ltd.

Miniature photoelectric sensor

PST series

Product advantages

➤ Accurate and fast

- Quick response and positioning
- Laser-like light spot, high precision positioning
- Integrated chip design, strong resistance to light interference

➤ Easy application

- Tiny and exquisite, easy to install
- Highlight 360°LED indicator, highly effective detection
- IP67 protection degree, strong protection
- 45° cable, space-saving
- Stainless steel embedded, high strength
- Standard industrial installation design, simpler installation
- Complete specifications, various applications

Miniature photoelectric sensor PST background suppression series

Product unique advantages

- Distinguishable for multiple colors
- Multi-turn accurate distance
- Multi-turn accurate distance

- Excellent optical structure design
- Excellent optical structure design

Multi-turn potentiometer design, accurate distance adjustment

Applications

Bottle cap detection

The background suppression series can stably detect beer bottle caps with its laser-like light spot and excellent black and white color difference characteristics.

Copper wire detection

Convergent reflection series are able to detect $\phi 0.1\text{mm}$ copper wire, highly fit for tiny objects detection.

Silicone wafer detection

The background suppression series can achieve stable detection of extremely black trays or silicon wafers thanks to its excellent black-white difference characteristics.

Chip detection

Through beam series is red light spot design, enabling the detection and counting function of the small chips.

Workpiece detection

Tiny black-white difference, suitable for changeable colors detection.

Silicon detection

Adoption of laser-like spot design with high luminous intensity. Realization of extremely black silicon wafer detection.

Guide Selection

Detection method	Shape	Connection method	Detection distance	Model	
				NPN Output	PNP Output
Through-beam		Cable type	2m	Emitter PST-TM2DR Receiver PST-TM2DNOR	Emitter PST-TM2DR Receiver PST-TM2DPOR

Accessories(order separately)

Mounting bracket(Purchased seperately)

Applicable sensor	Shape	Model	Description
All part numbers		ZJP-11	Material:Carbon steel galvanized
All part numbers		ZJP-12	Material:Stainless steel
All part numbers		ZJP-13	Material:Stainless steel

Connection cable(Purchased seperately)

Applicable sensor	Shape	Model	Description
Sensors with cable+M8 connector		QE8-N3F2	M8 plug-in 3-pin female header
		QE8-N3G2	M8 plug-in 3-pin female header

Reflector(TD-11 is standard reflector for retro reflective sensors, other reflectors should be purchased seperately)

Applicable sensor	Shape	Model	Description
PST series		TD-09	Size:40*60mm
		TD-11	Size:13.8*23.4mm
		TD-12	Size:18*60mm

Specification-Through-beam

Type	Model			
NPN Cable type	PST-TM2DR PST-TM2DNOR	PST-TM2DR PST-TM2DNCR	PST-TC50DR PST-TC50DNCR	PST-TC50DR PST-TC50DNCR

Sensing distance	2m		50cm	
Standard target	φ 5mm above opaque objects		φ 2mm above opaque objects	
Min target	φ 3mm above opaque objects ^①		φ 1mm above opaque objects ^①	
Direction angle	Emitter:±1° Receiver:±4°		--	
Spot size	80mm@2m		4mm@50cm	
Consumption current	Emitter:≤10mA Receiver:≤15mA		Emitter:≤5mA Receiver:≤15mA	
Supply voltage	10...30VDC			
Load current	≤50mA			
Voltage drop	≤1.5V			
Light source	Red light (640nm)			
Protection circuit	Short circuit,reverse polarity,overload protection			
Indicator	Green:Power supply indicator,stability indication;Yellow:Output indication			
Response time	<1ms			
Anti ambient light	Sunlight interference ≤10,000 lux;Incandescent light interference ≤3,000 lux			
Operation temperature	-20...55 °C			
Storage temperature	-30... 70 °C			
Protection degree	IP67			
Certification	CE			
Shell material	ABS			
Lens	PMMA			
Weight	25g(2m Cable type),10g(0.2m Connector with cable type)			
Accessory	M3 Screws×2、Nut×2、 Operation manual			

Remark:

①The detection of the smallest detectable object can be achieved only under the appropriate sensitivity conditions

Installation

Product Installation Diagram

Remark:For mounting, please keep the tightening torque below 0.5N·m

Precautions

- Please make sure that the power supply voltage is within the rated voltage range before powering on
- The time from powering-on to normal detection is 100ms. Please make sure to use the sensor after 100ms of powering-on
- When using different power sources for the sensor and load, be sure to turn on the power of the sensor first
- When the sensor is not used, it is recommended to cut off the power on the load first, and then cut off the power of the sensor
- Do not subject the sensor to severe external forces (such as hammer hits, etc.) during installation, so as not to damage the sensor performance
- Avoid using thinner, alcohol or other organic solvents when cleaning the sensor

Installation precautions(Suitable for background suppression products)

- During installation, please make sensing face parallel to the sensing object (not inclined to the detection object, except for the shiny objects)

- To detect shiny objects (or shiny surfaces), please tilt the sensor by 5...10° as shown below

Installation precautions(Suitable for background suppression products)

- When sensor faces down to mirror body objects, the light emitted from sensing object is reflected to the mirror body and then returned to the sensor, which may sometimes cause unstable action. To avoid it, please install the sensor by tilting or keeping a certain distance from the sensor as shown in the right figure

- Regarding to the installation direction, please pay attention to the movement direction of sensing object, and install it as shown below

- When detecting objects with big color differences or different materials, please refer to the following methods for installation

Safety Warning

- Do not use in an environment with flammable, explosive or corrosive gases
- Do not use in an environment with oil or chemicals
- Do not use in a high humidity environment
- Do not use in direct sunlight
- Do not use in other environmental conditions that exceed the rated value
- Do not disassemble, service or modify this product without authorization

Scrap Treatment

- When the product is scrapped, please dispose of it as industrial waste
